

The Caribbean - Suitable for MASS testing?

The Caribbean - Suitable for MASS testing?

- Good range of weather and traffic conditions
- Small tidal range
- Sometimes subject to sargassum weed
- Generally good transport links to the rest of the World
- Many Island Nations with strong Maritime History
- Suitable regulatory environment - e.g. Caribbean SCV Code already mentions Autonomous vessels

The Caribbean - Suitable for MASS testing?

Maybe for inter-island transport we can go from;
