Women's International Shipping
& Trading Association

WHO WE ARE

Formed in 1974, the Women's International Shipping & Trading Association (WISTA International) is a global organisation connecting female executives and decision makers around the world. WISTA International serves as a connector for its network of more than 3,000 female professionals from all sectors of the maritime industry.

More than 45 countries support a National WISTA Association (NWA), each of which in turn is a member of and is guided by WISTA International. NWAs provide in-country and regional networking, business and skill building opportunities, corporate visibility, and also facilitate relationships within the industry.

On a global scale, WISTA members have access to an incredibly diverse network of executives in the shipping and trading field on whom they can call for referrals, connections, advice or business collaborations.

WISTA INTERNATIONAL REPRESENTS FOUR CORE VALUES:

PROFESSIONAL

WISTA members are known for their professionalism, strength of character and ability to facilitate business and relationships. WISTA members pride themselves on conducting global business with unparalleled competency and skill. As a network, we benefit from being supportive, engaging and ambitious.

DYNAMIC

WISTA members are known to be dynamic and proactive. That energy, on a global scale, creates a network that breaks the current paradigm, attracting professionals who are constantly reaching to achieve success. We believe this enhances productivity and raises the profile of the entire industry. WISTA's dynamic and diverse global network gives members the confidence of knowing they can find the right person in the right country for a consultation or to support corporate business abroad.

COMMITTED

WISTA International strives to strengthen the relationships between individual members, companies, and countries, as well as within our international organisation. Members are not simply involved, they are committed. Passion for doing business as professional women extends beyond WISTA meetings and events. WISTA members are dedicated to supporting one another's professional ambitions, desires and achievements both inside their companies and out. WISTA members pride themselves on making a positive impact on one another and on using opportunities within the WISTA network to make a difference.

OPEN-MINDED

Technological advancements in the shipping and trading field have opened opportunities for new lines of business and collaborations once thought impossible. Embracing a positive attitude toward change and innovation, WISTA members lead the industry in being open-minded to the benefits of a collaborative global workforce.
