

ROLL-UP

Please note that since there are limitations to the upload we can do via the website, we are not giving you "ready to print" version of the roll-up. Please reach out to the WISTA International Communication and Support Officer at wista@wistainternational.com for an "original" to give to the company you are ordering from.

The roll-up can either be US standard size 32"X80", and 850mm X 2020mm, which we have been told is standard EU size.

It can be printed on vinyl or fabric - to order all you need to ask for is a roll-up banner quote for the dimensions that are appropriate to your country.

NB. The picture uploaded only shows you what the roll-up looks like and is not good enough for printing.
