## European Shipping Week 2020 17/02/2020 - 21/02/2020

Building on the success of the first two European Shipping Weeks, in 2015 and 2017, the third will take place between the 17th and 21st February 2020 at the The Hotel, Brussels. The week will feature an array of events with high-profile keynote speakers from the world of shipping and the European institutions. European Shipping Week is a platform where EU policy-makers can meet and engage with European shipowners and other stakeholders from the maritime sector. The focus is on shipping, in all its different aspects, including the participation of sectors linked to the shipping industry.

## Smart Ports Summit

19/02/2020 - 20/02/20

The Smart Ports Summit, 19-20 February 2020, brings together the experts and innovators who are addressing the real need for optimisation of global supply chains and ports to secure fast and efficient movement of goods, manage mega vessels and meet sustainability targets. Shippers have become increasingly frustrated with lack of visibility, communication, modern equipment and technology at port hubs. Problems often arise whereby a full logistics team is not ready to receive a vessel; leading to unnecessary delays with transporting goods to their final destination.

## German Ship Finance Forum 27/02/2020

German Ship Finance Forum has bridged the gap between shipowners and the international capital markets. Their publications, forums, books and other services are driven by a set of common aim: to make the attendees money, save them money and provide them with access to investment opportunities and capital.
